

Taikyoku Nidan

Taikyoku is translated as "first course" or "basic ultimate." The Taikyoku kata were developed by Gichin Funakoshi as a way to simplify the principles of the already simplified Heian series for elementary school instruction. The embusen, or pattern of the kata's movements, are the same as in Heian shodan. Students of karate systems that use the taikyoku kata series are often introduced to them first, as a preparation for the Heian kata.
